2014 Demand/Need Assessment

County-only portions of PIF Districts 5-10.

Neighborhood / community parks and urban natural areas.

The gap between the targeted standard for neighborhood park acreage and the existing inventory measures the need for 91.9 acres of additional NH park acres in the UUA. The need for additional community park acreage is 94.6 acres. Combined urban parks target to meet adopted standard is the acquisition of an additional 185.2-acres.
