Questions

- 1 Please provide location and brief summary of your project.**
Construction of a new mansion located on Prune Hill. House to over look the City of Camas.
- 2 Need Statement: Describe why CDBG funds are needed. Detail all of the issues that would be addressed with this project. Include any health or safety issues and any past actions taken to try to resolve the problem.**
30 points maximum - 30% of total
I currently live in a house that is not big enough for my family and pets. I need more space and need to include a built in fish tank of at least 200 gallons. The house will be one story to remove the risk of falling down the stairs. The house will include a workout room to improve the health of me and my family. My current residence is not large enough to accommodate a workout room and the weather is not reliable in our area to work out outdoors.
- 3 Solution Statement: Describe the project activities and how they will address the needs identified above. Include a list of objective measurable outcomes and how your proposed solution is the most effective at achieving those outcomes.**
10 points maximum - 10% of total
The construction of the new house will be one story so that I cannot fall down stairs. The house will be large enough to house each of our pets in their own area and have one bedroom for each of the humans in our family.
- 4 Solution Statement: How will CDBG funds be used? Give estimates of quantities, size and cost of project components. Describe tasks and timeframe of the project. Upload project cost estimate and complete the timeline template.**
10 points maximum - 10% of total
CDBG funds will be used for the acquisition of the property that my new mansion will be built on. The property is 2 acres in size. The construction of the house will be completed by a general contractor who will subcontract for each of the trades. The property is ready to be purchased and construction can start April 1st.
- 5 Solution Statement: How is the project coordinated with other community activities? Describe the role of other entities and/or individuals who have provided input for this project.**
10 points maximum - 10% of total
The general contractor will be working with the Arc of Southwest Washington to provide experience in construction for those with learning disabilities. They will also work with the Evergreen School District's construction program for much of the labor.
- 6 Project Benefit: Enter both the total people served and the number of people who are low/mod income being served. If the project is in a low/mod residential area and will benefit the entire area, use Census data or contact staff with questions.**
10 points maximum for cost per person served and 10 points maximum for percentage of low/mod persons served. 20 points maximum - 20% of total
