

**WASHINGTON COUNTIES RISK POOL
RISK MANAGEMENT
CERTIFICATION REQUIREMENTS**

One of the following certification categories are required for all member county Risk Managers and/or persons functioning as Risk Managers or Claims Administrators. Although 'basic certification' meets the certification requirement, individuals are encouraged to obtain advanced certification by one of the two methods identified below. These can be obtained through workshops, correspondence, or on-line over the Internet. Training is sponsored by the WCRP.

Risk Manager WCRP Certification Requirements: Five (5) hours of WCRP Risk Management training annually, with one of the following....

for Basic Certification:

- Insurance Institute of America (IIA) (or equivalent): Successful completion of *Introduction to Risk Management* and *Introduction to Property and Liability Insurance*.

OR,

- Completion of the current PRIMA Foundations training program or previous completion of the Foundations and GRMS training program.

OR,

- Within the last 7 years, a licensed property and casualty agent in the State of Washington with a minimum of 5 years of experience.

AND, for Advanced Certification:

- CPCU, CRM or ARM designation.

OR

- Successful Completion of Insurance Institute of America (IIA) (or equivalent) courses: *Risk Management for Public Entities*, *Introduction to Claims*, and *Introduction to Underwriting*.

Claims Administration WCRP Certification Requirements:

- Insurance Institute of America (IIA) (or equivalent): Successful completion of *Introduction to Claims*, and WCRP Claims Administration Training.
