New Water Tower

Clark County Public Utilities is in the process of constructing a second water

storage tank at the Southwest corner of the intersection on NE 14th Avenue and NE 68th Street. The present water tank holds a half a million gallons. The new second tank will hold 2.4 million gallons. Water to fill these storage tanks is pumped from local wells and will service all of Clark County. The Hazel Dell site was selected due to the higher elevation which enhances water pressure. Construction should be finished by the end of this year.

Support Local Businesses in Hazel Dell

Small and locally owned businesses are the mainstay of our community's economy. The owners of these businesses live and work in our community and have a vested interest in our community's quality of life. Local businesses provide jobs, are a key source of tax revenue to support public services, support our schools, our parks, and are instrumental to the quality of life in our community. They have a vested interest and provide

important goods and services to all of us living here in Hazel Dell.

From time-to-time we feature Hazel Dell businesses in our neighborhood newsletter. We want you to know who your local businesses are and what they have to offer. We urge you to do business with them, support them and in so doing support your local community. Everyone benefits from a strong and solid local economy. Your neighborhood association supports local business and we hope you will, too.

For more information about local businesses, contact the Hazel Dell-Salmon Creek Business Association at <http://www.hdscba.org/> or Stockford Village Business Association at 10000 NE 7TH AVE STE 105, VANCOUVER, WA

We need your help!

Separate glass and don't place in big blue recycling bin. Recycle plastic bags at the grocery store or reuse at home.

Because you put a lot of effort into recycling, we want to help you do it right. Please remember to keep plastic bags, plastic wrap and glass out of your blue recycle cart. These items can clog sorting machines and create a hazard for workers.

We want to thank you for recycling right! Go to RecyclingDoneRight.com for the chance to win an iPad mini, a reusable bag or other prizes.

What To Expect... When You Dial 9-1-1

Calling 9-1-1 is serious business. We want you to call 9-1-1 to receive help for emergencies, potential emergencies, or if you are not sure if it's an emergency. But what happens when you call for help? What should you say? What does the person on the other line need to know? What if you forget something?

Dispatchers are trained to pull and assess information from a caller. Expect them to guide you with questions. They know what information they need to get first in order to ensure the right type of help arrives in a timely manner, and the best way to get the assistance you need is to answer the questions in the order they ask them.

Here's a quick guide to help us help you:

If you speak another language or dialect tell us right away. At push of a button, we can connect to a translator. CRESA has translated 9-1-1 calls in more than 170 languages.

Let the dispatcher know what is happening. Is there a crime in progress? Is there a fire? Does someone need medical help? This information lets our dispatchers know what type of help you need.

We want to know where the situation is occurring. Provide an exact address if you know it and don't forget the floor and apartment number if you are in a building. Unsure of where you are? A nearby intersection or landmark will help.

When did the incident occur? It is important to know if this is an active situation so our dispatchers can prepare the first responders know what to expect.

Let us know who is involved. We want to know if it a family member, someone you know, or a stranger. It also helps to know if there are multiple people involved and who they are.

If weapon was used then let us know. Telling a dispatcher about weapons helps keep the public and first responders safe.

Tell us if anyone is injured. If someone is hurt, our dispatchers will ask you a series of questions to determine what type of care is needed. Our dispatchers are also trained to provide medical instruction until a medic arrives.

It is important to remember the type of response is based on the emergency. CRESA's 9-1-1 call center receives more than 1,000 calls per day. Not every call can or should involve emergency units traveling at high speeds with lights flashing and sirens blaring. This type of response comes with inherent risk for the public and the first responders, but is rightly reserved for life-threatening emergencies.

welcome to attend and participate in the association.

If you have any questions or would like more information, please contact one of the officers or board members listed on this page. The NEHDNA does not subscribe to any religious affiliation or political party. Our desire is to work together for the common good of the neighborhood in which we all live. You don't have to live in the area to be a member or to come to the meetings! All are welcome.
