

Draft

Supplemental Environmental Impact Statement

August 2015

Agenda

1. Purpose of the meeting

- a. Progress to date
- b. DSEIS Alternatives
- c. DSEIS Summary of Impacts by Alternative

2. Next steps

Comprehensive plan progress to date

Alternative 2

The new planning assumptions, policy direction, changes in land use/zoning, and principles and values defined by the commissioners are reflected in this alternative.

Alternative 2

The county is proposing changes in land use/zoning that supports job growth and reflects development trends.

Rural County

Minimum parcel size changes for AG-20, FR-40 and some R-20

Urban Reserve

Removal of overlay in North Salmon Creek area to reflect current development trends

Public Facilities

Creation of a Public Facility zone to identify publicly owned facilities

Urban Holding

Removal of overlay in Fisher's swale area to reflect current development trends

Mixed Use

Matching comp plan designation to zoning

Vancouver UGA

Land use changes to support job growth in Salmon Creek and Discovery area

Battle Ground UGA

Land use changes from industrial to residential to reflect current development

Washougal UGA

Correcting zoning map inconsistency between county and city zoning

Ridgefield UGA

UGA expansion to enhance the city's recreational opportunities

Alternative 2

Comprehensive plan map legend consolidation

1. Consolidation of comprehensive plan land use designations

- **Rural:** Consolidate multiple Rural comp plan designations (R-5, R-10, R-20) to one **Rural (R)** designation
- **Forest:** Consolidate two Forest comp plan designations (Forest Tier I and Forest Tier II) to one **Forest (F)** designation
- **Commercial:** Consolidate multiple urban commercial comp plan designations (Neighborhood, Community and General) to one **Commercial (C)** designation
- **Urban Reserve:** Combine Urban Reserve (UR) comp plan designation and overlays into one urban reserve overlay. Implemented on the zoning map by UR-10 overlay on residential and UR-20 overlay on all other zones.
- **Urban Holding:** Create an Urban Holding overlay (UH) comp plan designation. Implemented on the zoning map by UH-10 for residential and UH-20 on all other zones.

2. Removal of Three Creeks Special Planning Area overlay

- Work will be completed with 2016 Comprehensive Growth Management Plan update

Alternative 2

RURAL AREAS

Recommendations from the Rural Lands Task Force

- Reduce minimum lot area requirements
 - Agriculture zoning: from 20 acres to 10 acres
 - Forest zoning: For parcels zoned FR-40, from 40 acres to 20 acres
 - Rural zoning: For parcels zoned R-20, from 20 acres to 10 acres, in some areas

Alternative 2

BATTLE GROUND UGA

Change from industrial land to low density residential and change the R1-5 of adjacent parcels to R1-20 to recognize existing uses.

Comp plan map: Change from Industrial (I) to Urban Low Residential (UL)

Zoning map

Six parcels abutting NE 189th St to change from Single-family residential R1-5 (5,000 sq. ft. lots) to Single-family residential R1-20 (20,000 sq. ft. lots) with Urban Holding (UH-10) overlay

Change from Business Park (BP) and Urban Holding (UH-20) to Single-family residential R1-20 (20,000 sq. ft. lots) with Urban Holding (UH-10) overlay

Alternative 2

RIDGEFIELD UGA

5 parcel expansion of Ridgefield Urban Growth Boundary including the Tri-Mountain Golf Course

Comprehensive Plan map: Retaining Parks and Open Space (P/OS) designation

Zoning map

Retaining Parks and Open Space (P/OS) zoning and adding an Urban Holding (UH-20) overlay

Alternative 2

WASHOUGAL UGA

Correcting an inconsistency between county and city zoning classifications

Comprehensive plan map : No change

Zoning map

Change from AR-16 (Washougal zoning) to R-18 (county zoning) and adding Urban Holding overlay

Change from R1-15 (Washougal zoning) to R1-10 (county zoning)

Steigerwald refuge: Heavy Industrial to Parks and Open Space. Apply Urban Holding (UH-20) to Steigerwald and property owned by Port.

Alternative 2

URBAN RESERVE

Removal of Urban Reserve overlay in the north Salmon Creek area. This area provides a natural buffer to agriculture resource lands.

Comp plan map: Removal of Urban Reserve and application of Rural designation

Zoning map

- Removal of Urban Reserve (UR-10) zone and application of Rural (R-5) on those parcels in gray with red outline
- Removal of Urban Reserve (UR-10) overlay and retaining Agriculture zoning

Alternative 2

URBAN HOLDING

Removal of Urban Holding designation in the Fisher's Swale area within the Vancouver Urban Growth Boundary – these areas are already developed and are served by infrastructure

Comprehensive plan map: Retaining Urban Low Residential designation

Zoning map

Removal of Urban Holding-10 (purple stripes) and keep the Single-Family Residential zoning of (R1-20), (R1-10) and (R1-7.5)

Alternative 2

MIXED USE

Application of appropriate comprehensive plan designation to match the actual zone in use instead of the mixed use

Zoning map: Retaining current zoning

Proposed comprehensive plan map

Change from Mixed Use (MU) comp. plan designation to match the zoning

- Includes parcels outlined in yellow
- New comp. plan designations include:
 - Commercial
 - Industrial
 - Urban Low Residential
 - Urban Medium Residential
 - Urban High Residential

Alternative 2

PUBLIC FACILITIES

Creation of a Public Facilities comprehensive plan designation and zoning district. The district includes publicly owned facilities, i.e. schools, utilities and government buildings

Comprehensive plan map

- The comprehensive plan map applies a Public Facilities (PF) designation to land owned by some public entities.

Zoning map

- Changing to Public Facilities (PF) zone

Alternative 3 – City initiated changes

The cities of Battle Ground and La Center are considering expanding their urban growth areas.

Battle Ground UGA expansion

Proposed comp. plan designation of
Mixed Use with Urban Holding overlay

La Center UGA expansion

Proposed comp. plan designation of
Commercial with Urban Holding overlay
and Public Facility for school

Alternative 3 – City initiated changes

The cities of Ridgefield and Washougal are considering expanding their urban growth areas for residential.

Ridgefield UGA expansion

Proposed comp. plan designation of Urban Low Density Residential

Washougal UGA expansion

Proposed comp. plan designation of Urban Low Density Residential

Transportation

ARTERIAL ATLAS UPDATE

The Arterial Atlas is the long range regional road plan within the comprehensive plan. Streets are shown by their function in handling vehicle, bicycle and pedestrian traffic.

This map shows both existing and proposed streets.

Alternative 4

This alternative proposes changes to Rural and Resource lands.

DSEIS Summary of Impacts by Alternative

Table 1-2. Potential New Lots Allowable Under Each Alternative

Zone	Alternative 1 No Action Alternative	Alternative 2 – Countywide Modifications	Alternative 3 – City UGA Expansions	Alternative 4 – Rural, Agriculture, and Forest Expansion
Rural	5,684	5,823	5,672	9,880
Agriculture	970	1,937	952	1,958
Forest*	419	460	419	563
Total	7,073	8,220	7,043	12,401

Source: Clark County GIS, based on the Rural Vacant and Buildable Lands Model (VBLM) dated July 24, 2015

* The Rural VBLM excludes property in the current use program for Timber and Designated Forest Land. This may underestimate the number of potential lots in Alternative 4.

** This table does not include areas designated as Rural Center or Urban Reserve, nor does it include lots within UGAs.

Earth Resources

Table S-2. Summary of Impacts by Alternative

Alternative 1 – No Action Alternative	Alternative 2 – Countywide Modifications	Alternative 3 – City UGA Expansion	Alternative 4 – Rural, Agriculture, and Forest Changes
No new impacts that cannot be mitigated through compliance with existing regulations.	Zoning changes could have individually small but cumulatively moderate impacts on prime soils and forested areas. Mitigation would be provided by localized protection.	Same as Alternative 1	Similar to Alternative 2, but with cumulatively greater impacts due to potentially more development.

Water Resources

Table S-2. Summary of Impacts by Alternative

Alternative 1 – No Action Alternative	Alternative 2 – Countywide Modifications	Alternative 3 – City UGA Expansion	Alternative 4 – Rural, Agriculture, and Forest Changes
<p>Moderate potential for impacts due to development allowed under current zoning. New stormwater regulations since 2007 could improve surface and groundwater resources.</p>	<p>Incremental increase in impacts to hydrology and water quality resulting from potential for more intensive development of over 34,000 acres. Individually small but cumulatively moderate impacts on aquatic resources. Potential localized impacts with UGA changes; could be mitigated during project-specific review.</p>	<p>Same as Alternative 1.</p>	<p>Similar to Alternative 2, but with cumulatively greater impacts due to potential development on approximately 65,500 acres.</p>

Fish and Wildlife Resources

Table S-2. Summary of Impacts by Alternative

Alternative 1 – No Action Alternative	Alternative 2 – Countywide Modifications	Alternative 3 – City UGA Expansion	Alternative 4 – Rural, Agriculture, and Forest Changes
<p>More intensive development under current zoning could affect fish and wildlife habitats, threatened & endangered species, migratory species, and wetlands, but regulations and mitigation requirements would minimize impacts.</p>	<p>Incremental increase in impacts to fish and wildlife habitats, threatened & endangered species, migratory species, and wetlands resulting from potential to create 8,220 new parcels and increased density.</p>	<p>Potential localized impacts to fish and wildlife habitats, threatened & endangered species, migratory species, and wetlands; could be mitigated during project-specific review.</p>	<p>Similar to Alternative 2, but with cumulatively greater impacts due to potential creation of approximately 12,400 new lots.</p>

Energy and Natural Resources

Table S-2. Summary of Impacts by Alternative

Alternative 1 – No Action Alternative	Alternative 2 – Countywide Modifications	Alternative 3 – City UGA Expansion	Alternative 4 – Rural, Agriculture, and Forest Changes
<p>Most impacts to scenic and natural resources could be mitigated through compliance with existing regulations.</p>	<p>Incremental increase in use of energy and natural resources resulting from potential to create 8,220 new parcels. Visual and scenic resources could also be affected with increased development. Incremental development over time would minimize impacts.</p>	<p>Low potential for impacts; could be mitigated during project-specific review.</p>	<p>Similar to Alternative 2, but with cumulatively greater impacts due to potential creation of approximately 12,400 new lots.</p>

Land and Shoreline Use

Table S-2. Summary of Impacts by Alternative

Alternative 1 – No Action Alternative	Alternative 2 – Countywide Modifications	Alternative 3 – City UGA Expansion	Alternative 4 – Rural, Agriculture, and Forest Changes
Localized impacts from development allowed under current zoning would be mitigated through compliance with existing regulations.	Incremental increase in impacts to land and shoreline use resulting from potential to create 8,220 new parcels which could affect opportunity for large-scale agricultural production but would increase opportunity for rural housing.	Same as Alternative 1.	Similar to Alternative 2, but with cumulatively greater impacts due to potential creation of approximately 12,400 new lots.

Transportation

Table S-2. Summary of Impacts by Alternative

Alternative 1 – No Action Alternative	Alternative 2 – Countywide Modifications	Alternative 3 – City UGA Expansion	Alternative 4 – Rural, Agriculture, and Forest Changes
Low potential for impacts that would not be mitigated through on-going regional efforts to improve the existing transportation system, including encouraging alternative modes of travel.	Incremental increase in impacts to the transportation system resulting from distribution of higher travel demand over a larger geography compared to concentrated urban areas. Infrastructure costs could be prohibitive.	Same as Alternative 1.	Similar to Alternative 2, but with cumulatively greater impacts due to potentially more development.

Public Facilities and Utilities

Table S-2. Summary of Impacts by Alternative

Alternative 1 – No Action Alternative	Alternative 2 – Countywide Modifications	Alternative 3 – City UGA Expansion	Alternative 4 – Rural, Agriculture, and Forest Changes
<p>More intensive development allowed under current zoning could affect the levels of service provided in rural areas.</p>	<p>Incremental increase in impacts to public facilities and utilities resulting from potential to create 8,220 new parcels which distributes the need to provide services over a larger geography, compared to concentrated urban areas. Opportunities for new development may be delayed until services and facilities are available.</p>	<p>Low potential for impacts to infrastructure and services. No expansion of service areas would be required beyond that already planned.</p>	<p>Similar to Alternative 2, but with cumulatively greater impacts due to potentially more development.</p>
