

~PROCLAMATION~

- Whereas,** Autism is a complex neurological and developmental condition that typically appears in the first three years of life; and
- Whereas,** The Centers for Disease Control and Prevention estimates one of every 88 people in the United States has been identified with an autism spectrum disorder; and
- Whereas,** Autism spectrum disorders are lifelong conditions and can have a devastating impact on the families of affected individuals; and
- Whereas,** Although a cure for autism has not been found, persons with autism spectrum disorders can be helped to reach their greatest potential with early diagnosis and aggressive, consistent therapy; and
- Whereas,** Through research, legislation, training, support groups, advocacy and increased awareness, we will make positive changes and meet the challenges of serving a growing number of Clark County residents with autism spectrum disorders.

Now, therefore, this Board of County Councilors does hereby proclaim April as

~ Autism Awareness Month ~

in Clark County, Washington, and calls on residents of our community to seek a better understanding and acceptance of autism and autism spectrum disorders.

Signed this 14th day of April 2015

BOARD OF COUNTY COUNCILORS
FOR CLARK COUNTY, WASHINGTON

David Madore, Chair

Jeanne E. Stewart, Councilor

Tom Mielke, Councilor
