

East Fork Lewis River Habitat Restoration

Project Goals

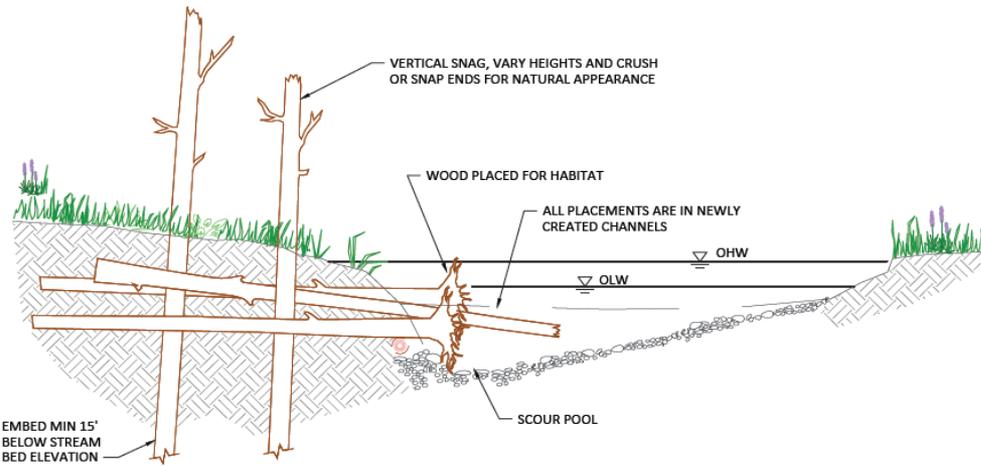

- 1) **Address limiting factors** identified in EFLR Habitat Restoration Plans (2009 & 2014), including 50% reduction in off-channel habitat in lower EFLR
- 2) **Reestablish valuable** juvenile salmonid rearing and adult spawning/holding areas
- 3) **Increase likelihood of success** of regional salmon habitat restoration efforts, including Mason Creek, McCormick Creek and chum reintroduction along Lewis River
- 4) **Support Clark County** effort to protect and preserve public space and greenways

La Center Wetlands Sites (43 & 43B)
