**PUBLIC HEARING: STORMWATER CODE**

To consider adoption of amendments to the Stormwater Ordinance and the Clark County Stormwater Manual. Clark County's stormwater ordinance, CCC Chapter 40.385, was adopted in 2009. The part of the ordinance that requires control of the quantity and duration of stormwater runoff from developments based on pre-development conditions was challenged as violating the Federal Clean Water Act. The challenge was upheld in federal court, and at a public meeting on June 18, 2013, the Board of County Commissioners amended the ordinance on an interim basis, to reflect the pre-developed condition requirement based on the Western Washington municipal stormwater permit. The county now proposes to make the ordinance change permanent, consistent with the federal court order and current county practice. The county will consider this proposal at duly noticed public hearings before the Planning Commission and the Board of County Commissioners. In addition, the county proposes to amend the Clark County Stormwater Manual to be consistent with the amended ordinance.
