CLARK COUNTY STAFF REPORT

DEPARTMENT: Office of Budget and Information Services
DATE: November 4, 2014
REQUEST: Approve the 2014 Final supplemental request.
CHECK ONE: Hearing Routine

BACKGROUND:

Staff recommends the Board of County Commissioners approve the following adjustments to the 2014 Final Supplemental Budget. The adjustments are not limited to specific funds or departments, but reflect changes county-wide. Following are brief descriptions of the requested revisions. An attached exhibit reflects the detail of budget coding.

Item 1 Assessor **Assessor's Office - Sketch Conversion** **\$0**

2927

The supplemental budget request is to transfer \$40,000 from the Assessor's Office to Fund 3194 Technology Reserve Fund for purchase of services to convert 96,700 building sketches from the office's legacy system DC sketch into the current core system PACS. During implementation of the core system PACS, the original product vendor encountered insurmountable programming barriers to conversion and was unable to perform the work or be compensated for that portion of the contract. Since then, a third party vendor with more extensive programming experience has begun work with the PACS vendor and can complete the conversion, saving significant staff time over a manual data entry intensive process which would take 2-5 years to complete with existing staff.

Item 2 Budget Office **Changes in Personnel Headcount and Budget** **\$0**

2931

This package includes personnel changes that have happened in staff reports to the Board that now must be formally adopted.

Item 3 Budget Office **Close Fund 3087** **(\$ 4,205,550)**

2936

The County has decided to close Fund 3087 at the end of 2014. Fund 3087 transfers debt payments to fund 2914 each biennium; the last payments are scheduled in 2015-2016 in the amount of \$477,450, therefore this amount must be transferred in 2014 before Fund 3087 is closed. This will allow Fund 2914, the County debt fund, to make the final payments as scheduled in 2015-2016. In addition, the remaining unspent balance in fund 3087 is transferred to CRESA Capital Replacement Fund 6917.

Increase Contingency for Year End Adjustments

(\$ 874,669)

2974

This package is a precaution against surprise year end expenses that may need to be paid in 2015 before the 2014 books close. Since it is not possible to adjust the 2014 budget in 2015, it is necessary to exercise an abundance of caution at the close of the biennium in regards to available contingency. Barring any unforeseen problems, these funds will fall to ending fund balance.

Update Debt Fund 2914

\$201

2978

This decision package adjusts revenues and expenses for the debt payments Fund 2914, following the refinance of two county bonds (2005AR and 2005B). Revenues and expenses, and transfers to and from the debt fund are adjusted accordingly, and lined up to match the debt schedule.

Update General Fund Revenues \$2,045,799

This package updates projected departmental and non-departmental General Fund revenue streams, including taxes and fees, and intergovernmental revenues. Sales tax revenue estimates are increased by \$1.2 million, and the property tax collections forecast is increased by \$0.5 million. Various other revenues are being adjusted to reflect the latest 2014 trends; the net effect of the adjustments is an increase in revenues of \$2,045,799.

Department of Justice Grant

\$0

Clark County Community Corrections has been awarded an extension to an existing Department of Justice grant in the amount of \$58,059 for the period beginning in October 2014 and ending in June 2015. Of the total amount, the 2013/14 portion is anticipated to be \$21,076. The \$36,983 remainder of the grant will be requested as an adjustment to the 2015/16 budget. The grant is a continuation of the Adult Drug Court/DUI Therapeutic Court Offender Services Enhancement Grant (USDOJ grant CFDA 16.585 - #2010-DC-BX-0010). This grant restored a Corrections Counselor position (CBC0807) that was eliminated due to the required 2009 budget cuts. The Corrections Counselor was hired in January 2013. The grant provides nine additional months to complete the project.

**Carry Forward Pilot Project
Phone System Revenue**

\$42,125

In the 2013 Omnibus package #12, the Phone System Modernization Pilot Project was awarded \$42,125.00. This has not been used yet since the phone system upgrade will cost much more than the budget allotted. This request is to carry forward this funding and move it into out telephone reserve account to be used when the phone project is completed in 2015-16. This Decision Package would move the funding that was award by the General Fund to do a Phone System Modernization Pilot Project to the Telecom Reserves in Fund 5193. Approval of this decision package will allow us to keep existing revenue that has been set aside for the phone upgrade.

**General Services
Surplus/Recycling Program**

\$6,200

This Decision package gives Purchasing additional Expense and Revenue budget to run the new surplus program. Previously, Purchasing had to collect and store all surplus material that the county generated and send it up to the State Surplus program. With the new procedures that have been put into place we will be able to sell the counties surplus and bring in revenue. We estimate that purchasing will bring in \$7500 per year and that cost associated with running the program will run approximately \$1300 per year. This includes advertising, cell phone and recycling/disposal of items not sold. Approval of this decision package will allow Clark County to collect revenue through our surplus program.

Railroad Revenue and Expenses

\$0

2971

This Decision Package eliminates revenue and expenditure budget for the railroad. In 2012, a grant was awarded to the railroad. However, the railroad will not be receiving it in 2013-14. This eliminates both the revenue and the expense lines items in the budget. Approval of this decision package will allow for a better picture of the true revenue and expenditure of the railroad.

Chapter 108, 2014 Laws: Child Representation/Dependency Cases

\$0

2964

This request is for both revenue and expenditure authority in the amount of \$75,000, allowing Clark County to comply with Chapter 108, 2014 Laws (Ch. 108). Chapter 108 requires judges to appoint attorneys to represent all children, regardless of age, who are subject to a dependency case where the parental rights to the child have been terminated (the child is "legally free" to be adopted) and the child remains a ward of the state (generally, in foster care) for at least six months after all parental rights have been terminated. Normally, judges appoint attorneys to represent children in dependency cases only if the child is 12 years of age or older. The state will reimburse counties for the cost of providing an attorney, with some limitations, through June 30, 2015. Beginning July 1, 2015, the state will directly fund and contract with attorneys to provide this type of representation. Clark County complies with Ch. 108 with respect to the mandated appointment of attorneys to represent children, and Clark County is eligible for reimbursement by the state for the cost of complying with the law. This is a onetime request for 2013-14 since a decision package for 2015-16 has already been put in to correct for this need moving forward.

Item 14 Indigent Defense

2966

Indigent Defense Increase

(\$ 537,325)

This request is necessary to cover projected costs that exceed the 2013/14 budget. Historically, indigent defense budgets are based on the prior biennium's "current service level". The 2013/14 budget assumed no change from 2011/12 in workload and compensation levels, with one minor exception. Continuing increases in the number and seriousness of felony cases, including a significant increase in the number of pending "homicide" cases, and increasing costs for representation of children in dependency cases (excluding Ch. 108 cases) support this request. Felony caseloads, paid under flat-fee contracts, continue to increase in number and seriousness. The 2013/14 workload is projected to increase by 7.1%. The number of "homicide" cases has increased over 2011/12; as well as a significant increase in the length of time needed to resolve these serious cases. For 2009-2012, the average number of cases pending per month was between 11 and 13 cases. Compare this with averages of 17 cases in 2013 and 24 cases in 2014. Excluding an aggravated murder in 2011/12 and 2013/14, homicide costs are projected to exceed those for 2011/12 by \$250,000. A decrease in juvenile criminal caseload allows a partial offset of this increase. The cost of attorneys representing children in non-Ch. 108 dependency cases continues to increase. The majority of these cases and their cost continue for years. 2011/12 expenditures totaled \$443,642. The projected 2013/14 cost is \$494,019; a \$50,377 difference. Approval is necessary to meet legal mandates, both constitutional and statutory. Approval will result in an increase of 4.2% over 2011/12 actual expenditures. 2011/12 expenditures exceeded those for 2009/10 by 2.9%. This is a onetime request for 2013-14 since a decision package for 2015-16 has already been put in to correct for this need moving forward.

Software Upgrade

(\$ 24,549)

This request is for additional budget of \$24,549 to pay for a software upgrade to the County's taxation and assessment software, PACS. The PACS software now needs an upgrade to replace the existing software, which is budgeted in the Information Services Department in the General Fund. Approval of this request will allow continued use of the PACS system.

The Clark County Juvenile Department has jurisdiction over proceedings that involve juvenile offenders, dependency, at-risk youth, and truancy. Juvenile has been awarded a \$30,000 grant in support of the Juvenile Detention Alternative Initiative (JDAI). The grant runs from July 2014 to June 2015. KONE Elevator

\$0

This Decision package establishes the budget to transfer cash from the General Fund (0001) to the General Liability Insurance Fund (5040) for the repair costs of the Kone Elevator per the State Auditor's Office recommendations. Originally, the General Liability Insurance Fund paid for repairs to an elevator that was becoming a safety issue. The State Auditors found that the repair cost for the building's elevators should have come from the General Fund. Approval of this decision package will allow Clark County to comply with the State Auditors findings and return expended funds back to the General Liability Insurance Fund for the elevator charges.

Risk Management Reserves

(\$ 573,499)

This decision package requests additional expense capacity for the Risk Fund 5040. The Risk Fund costs have exceeded expectations due to a number of large judgments. To pay for these costs we are asking for an increase in our spending authority to be offset by reserve funds. This will cover a Washington Risk Pool payment that the General Fund has temporarily paid out of the contingency budget that was \$251,801, and for additional claims that are pending.

Item 20 Sheriff

2014 Byrne Justice Assistance Grant

\$0

2945

In August, the Sheriff's Office received from the US Department of Justice a \$97,417 award through the Byrne Justice Assistance Grant (JAG). Of this amount \$55,528 must be passed through to the City of Vancouver to fund Vancouver Police Department law enforcement initiatives. The remaining \$41,889 is to be used toward investments in law enforcement technology, ammunition, deputy safety gear, and other law enforcement and jail custody equipment for the Sheriff's Office. On May 27, 2014, the Board of County Commissioners approved a staff report as part of the consent agenda that authorizes funding to be used as budgeted in the grant application. The Sheriff's Office requests a supplemental budget adjustment to recognize the revenues and expenses in Fund 6315.

Item 23 Sheriff

Enforcement Critical Incident Response Overtime

(\$ 355,000)

2941

The Sheriff's Enforcement Branch has seen a marked increase in the number of critical incident response calls over the last 9 months, leading to unusual high overtime spending. Traffic fatality investigations have more than doubled, SWAT call-outs are up 25%, and death Investigations are up 10%. In addition, there have been four officer involved shootings investigations (normal is 0-1), an active shooter incident at the County Health Building, and three Mobile Response Team interventions (normal is 0-1) related to the Millennium Hearings, union action in Longview, and a coal protest on the County Campus.

The Sheriff was able to absorb these "bad" years in the past, but two factors have reduced his capacity to do so this biennium: 1) low staffing levels reduce the Sheriff's ability to use on-duty staff for critical incidents, which increases the need to use backfill overtime to maintain minimum staffing levels, and 2) the overtime budget has remained largely static for eight years (no increase to reflect contractual wage increases), eroding the number of funded overtime hours by about 12% since 2005.

The Sheriff requests \$355,000 in additional Enforcement overtime funding to help ensure adequate funding exists for critical incident responses anticipated for remaining four months of this biennium.

Jail Positions to Reopen Beds

\$555,000

2940

The jail has operated at less than full bed capacity since 2008, when the loss of 13 Corrections positions to budget cut resulted in the closure of H Pod. A rising jail population, particularly due to an increase in Washington Department of Correction (WDOC) inmates, creates a need and opportunity to reopen jail beds. Through a redeployment and realignment of employees, the reopening of these jail beds can be accomplished with the addition of eight Corrections Deputies. Also included in this action is a Corrections Commander to oversee the effort, study jail population shifts, underlying dynamics, review the work already done for expansion, and recommend a critical path of construction and renovation to address jail population challenges now and in the foreseeable future.

Funding for these positions will be provided by a current and sustained increase in revenue from the WDOC from the housing of State inmates. Over the past 24 months, the number of jail bed-days occupied by WDOC has doubled, and we expect this number to continue to climb in 2015-16. Conservative estimates show that \$755,000 per year in additional revenue is currently being generated, and we expect this figure to increase as WDOC continues to increase its usage of the Jail.

On September 9, 2014, the Board of County Commissioners approved a staff report as part of the consent agenda that authorizes these positions and associated costs beginning October 1, 2014. The Sheriff's Office requests a supplemental budget adjustment to recognize the revenues and expenses related to that action.

Sex Offender Address and Residence Verification Program Grant \$0

The State of Washington awarded the Sheriff's Office and its sub-grantees (six city law enforcement agencies in the County) \$248,507 through the Sex Offender Address and Residence Verification Program over the period from July 2014 to June 2015. The Washington Association of Sheriffs and Police Chiefs (WASPC), as administrator for the State, pays these funds in four quarterly \$62,127 payments when quarterly activity reports are received. The Board of County Commissioners accepted this funding as part of the July 22, 2014 consent agenda and recognized the need for a supplemental budget adjustment at that time. Half of the funds will be received and expended in 2014. The other half should be budgeted for the next biennium.

The refunding of the aforementioned bonds will be as a taxable obligation which should benefit the County by allowing more flexibility in how we manage the property by not having the restrictions that are in placed with tax exempt financing, the ability to explore the property's use while partnering with a private business use entity.

Refinancing our outstanding debt in a lower interest rate environment is a prudent step which could reduce the County's debt service cost. This resolution will provide the County with the flexibility to evaluate partnerships with private entities plus react to interest rate changes and reduce the cost of debt service if the market cooperates.

Balance Central Support Services Fund

(\$ 170,000)

2967

This Decision package is to balance the budget for Fund 5093- Central Support Services Fund. Each year Central Support Services provides more maintenance, rent, and utility payments than they have budget for. This package will allow us to correct for the areas that are not funding the account at the proper levels to pay for these expenses. Based on the last 24 months history and the revenue collected the Central Support Services Fund is being underfunded by the General Fund areas by \$977,632. To make this year whole Facilities will need another \$170,000 in support since other revenue sources are supporting the difference. Approval of this decision package will allow Clark County Facilities to continue to provide maintenance and utility support to all county departments. If this package is not approved we will have to stop doing any work for the remainder of the year on General Fund buildings and parks.

TMA Capital Planning Module

(\$ 18,134)

This decision package is for the purchase of the TMA Capital Planning Module. The capital required to improve the condition of facility assets is often one of an organization's largest expenses. It is critical to employ a strategic plan for the capital investments. The Capital Planning module includes powerful methods to simplify complex data visually with interactive Excel graphs and many pertinent reports. Approval of this decision package will allow Clark County Facilities to develop detailed capital plans across single or multiple budget years. The module accommodates maintenance backlog and cyclic renewal data from facility audits. This module will benefit all areas of facilities and the cost will be recouped with a manual transfer from the departments that benefit: the General Fund, Fairgrounds, CCH, CRESA, and Public Works.

Some of the features and benefits of this module allow Clark County to:

- Provides a clear process to prioritize capital planning projects
- Review annual, biennial, and five-year plans
- Forecast project planning for up to 20 years into the future
- Separate maintenance backlog from Facility Improvement funding
- Justify funding requests by projecting capital improvements and renewals
- Graphically show the impact of underfunding an operational budget for maintenance and replacement of buildings and infrastructure
- Show the gaps between funding for capital asset maintenance and proper capital investment
- Present a persuasive and credible argument for extending the life of your organization's assets
- Push summarized data from the Capital Planning module to six powerful Excel worksheets
- Simplify complex data visually with interactive Excel graphs and reports
