

BOARD TIME

September 25, 2013 - Surface Mining Overlay

The PC held a hearing on September 19, 2013 and continued the matter to October 17, 2013. Staff will have another PC work session on October 3, 2013.

Need to cancel the October 1, 2013 BOCC hearing on Surface Mining Overlay

Options to consider depend on how the Board wants to proceed:

Would the Board want to hold a work session before a hearing on Surface Mining Overlay? If so, possible dates are October 23rd or the 30th.

Because of public interest in the matter, would the Board want an evening hearing? If so, possible dates in November are the 5th or the 12th

The Board could also choose a special hearing date or hold a regular morning hearing in November. Staff need a date and time that we will include in the mailer we are sending out to property owners.
