DATE: May 29, 2015

SUBJECT: Award of CRP #342322 – 2015 HMA OVERLAYS

The 2015 HMA Overlays contract will improve various roads in Clark County by planning, pavement repair, over-excavation, roadway surface preparation, applying tack coat, hot mix asphalt overlays, full-depth reclamation, approach transitions and other associated work.

Purchasing received a sole response for CRP #342322. The bid was checked for accuracy, content, and compliance to specifications. Public Works determined that the high volume of work and the short construction period was a factor in the limited response and increased amount over the engineer's estimate. This project is part of the road preservation program and reflects the high priority the Board has placed on the maintenance of Clark County's transportation system. Public Works considered the option of re-bidding the project, but the delay would reduce the project size without any certainty that prices would improve as a result.

Therefore, Purchasing and Public Works recommend the 2015 HMA Overlays be awarded to the sole bidder, Granite Construction Company of Vancouver, WA, in the total base bid amount of \$7,881,881.00 including Washington State Sales Tax, and grant authority to the County Manager to sign all bid related contracts.
