

# TRAFFIC IMPACT FEE (TIF) PROGRAM UPDATE

---

BOCC Work Session  
September 3, 2014

# Agenda

1. Background
2. Purpose of update
3. Project goals
4. Project timeline
5. BOCC direction

# Background of TIF program

RCW 82.02 authorizes collection of impact fees

1991: Clark County adopts joint program operated with Vancouver

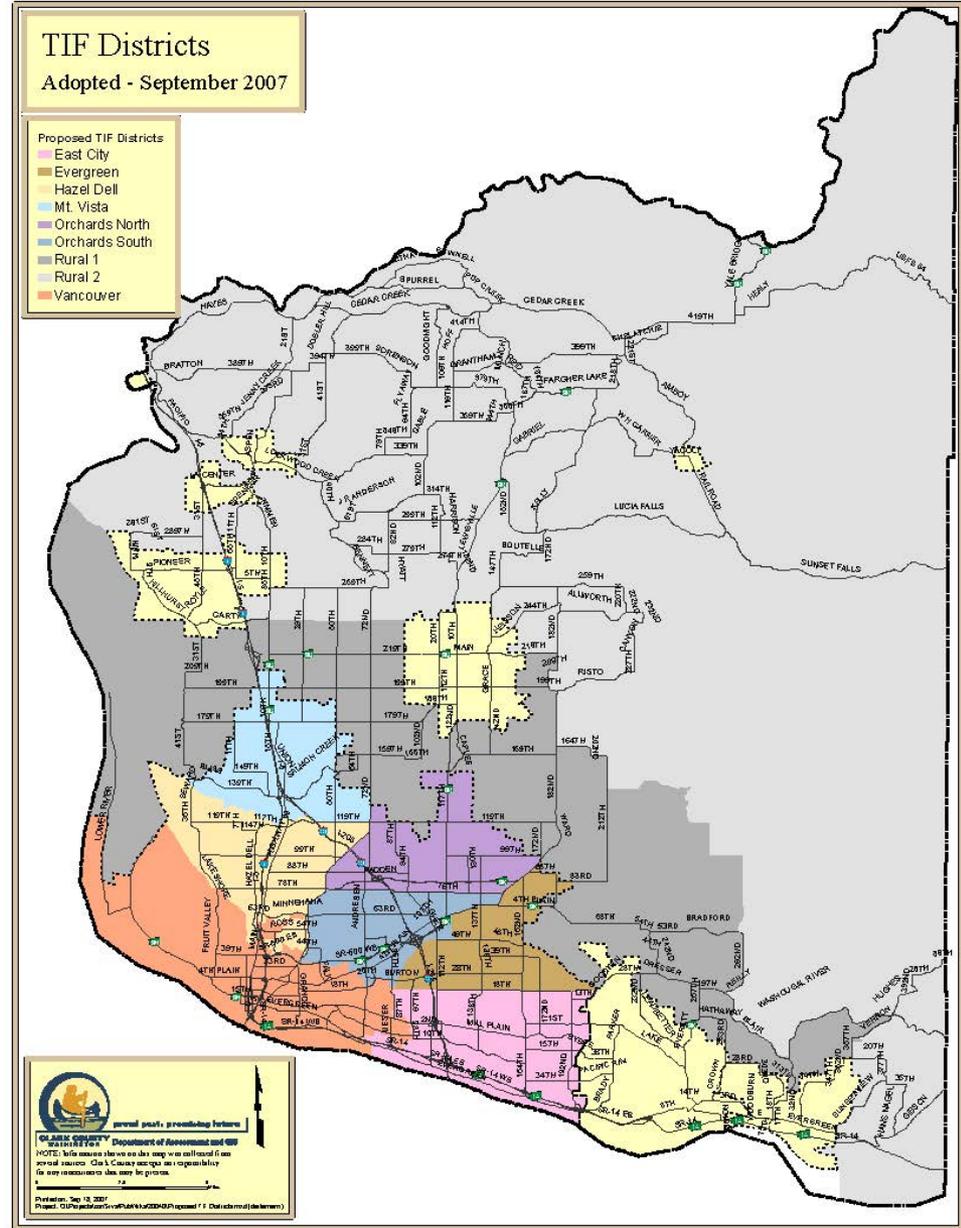

Estimated costs for 20-year Capital Facilities Plan (CFP) serve as the source for determining TIF rates

Fees assessed based on a development's generation of new trips

# 2007 Background

## (cont.d)

- 9 TIF districts:
  - 7 urban (2 County, 2 Vancouver, 3 Joint districts)
  - 2 rural
  - *Vancouver going from 5 districts to 3 districts*
- Introduction of regional and local projects
- Public elementary and middle schools and parks are exempt, but not high schools
- Reductions from the Calculated TIF
  - 30% Business Enhancement Factor
  - 15% Property Tax Related Reduction
  - Other miscellaneous reductions

# Why is a TIF program update needed?

- Vancouver began drafting its revised TIF Program in early 2014, to take affect in July 2015, ending the joint program;
- New TIF Program exclusive to Clark County would reflect county policies and priorities

# Goals for TIF program update

- Develop a program exclusive to Clark County
- Simplify current practices potentially lowering fees to developers and citizens
- Revaluation of district boundaries, all within unincorporated Clark County
- Application of incentives to businesses
- Evaluation of TIF Credit Program

# Current timeline for TIF program
